

Region A — EMPG Exercise Series 2017

CyberSecurity

This year's progressive exercise series will focus on a cybersecurity event

Seminar—June 15, 2017

What is CyberSecurity?

Increase awareness of the probability of a cybersecurity incident occurring in the local jurisdiction and how it can affect critical infrastructure.

Workshop—June 29, 2017

Participants will work to identify ways to protect the local critical infrastructure that could be adversely impacted by a cybersecurity event, as well as begin the process of identifying ways to protect and prevent exposure.

Tabletop Exercise—October 5, 2017

This tabletop exercise will provide participants an opportunity to work through a cybersecurity event resulting from a ransomware attack to test their plans and assumptions.
